

## Adult Residential Program

Villa Esperanza Services is committed to providing individualized, accessible, affordable housing for those with intellectual and developmental disabilities. Through Villa's various levels of support and assistance, individuals are reaching their greatest level of independence; living, working, playing and being active in their community.

In all of Villa's homes we practice a person-centered approach, providing residents with enriching social and community activities and educational opportunities, to nurture and promote individual choice.

Each intimate home setting has qualified trained staff assisting residents in all areas of living, such as:

- Independent living resources and transitional support
- Home and community safety training
- Budgeting and money management
- Food, nutrition and meal preparation training
- Public transportation resources and travel training
- Socialization and communication skill-building
- Housekeeping and personal hygiene support

Villa's residential program includes nine family-style, six bed, adult group homes and six independent living apartments.

The levels of residential care Villa provides include:

### **Community Care Homes**

Levels two and three Community Care Homes provide a supportive, nurturing environment so residents can enhance and maintain skills necessary to become successful, functioning, independent adults. Level two

homes have one staff to six residents ratio; level three homes have one staff to three residents ratio.

### **Intermediate Care Facilities (ICF) Homes**

These homes are Medi-cal funded and provide the intensive medical and training services needed by residents who require help with all aspects of daily living. A team of trained medical professionals and support staff including a dietitian, pharmacist, attending physician, registered nurse, occupational therapist, speech pathologist, qualified mental retardation professional and trained staff combine their efforts to provide for the needs of these adults. The ratio of staff to residents is one to three.

Villa also offers an **Independent Living Skills (ILS)** Program for individuals living independently who need ongoing support.

### **Funding**

Villa Esperanza Services is a non-profit organization with contracted services with regional centers.

Private-pay options are also available.
