

Employment Services

Villa Esperanza Services assists adults with developmental disabilities to secure and maintain paid employment in the community. Villa offers job development, ongoing job coaching and advocacy.

The key to Villa's Employment program is our person centered approach. Villa works with the individual, and their circle of support, to gather the necessary information that will allow us to develop a job that will best fit the individual's wants and needs. The program gives adults the chance to match their skills and job preferences with work assignments.

Employment opportunities range from group supported employment crews to individualized work experiences in the community.
